

design&Design è in grado di seguire il cliente dall'idea al progetto alla realizzazione ed offrire soluzioni complete ed integrate per ogni esigenza di spazio.

Il contract richiede versatilità multidisciplinare e solide competenze specifiche, cose che si acquisiscono sul campo e formano un insostituibile patrimonio di uomini ed esperienze.

Per **design&Design** mettere a disposizione questo patrimonio significa:

- sviluppare e realizzare le idee;
- gestire progetti articolati e complessi;
- coordinare la logistica, il montaggio e l'assistenza;

" In breve risolvere i problemi, sollevando il committente dalla complessa direzione organizzativa."

design&Design is able to look after its clients from the origin of their idea to its fulfillment, as well as to offer complete and combined solutions for every space.

The contract requires a multi-disciplinary versatility and a solid competence, these elements are acquired on the ground and form a priceless background of people and experience.

For **design&Design** to place all this at disposal of its customers means:

- to develop and carry out ideas;
- to deal with elaborate and complex projects;
- to coordinate the logistics, the fitting and the assistance;

" In summary, it works out all the problems thus relieving the customer from the involving organizational management. "
